Pre-requisite Waiver/Concurrent Enrolment Policy

If a student wishes to enroll in a unit without first completing all prerequisites, they must seek approval from the Program Chair of the major offering the unit. The Program Chair will consider the request in consultation with the Unit Coordinator.

When students request permission to enrol in units concurrently or for prerequisites to be waived the following MBS policy shall be applied:

1. If a student requests approval for a concurrent enrolment the student must have completed the Part I prerequisite, must have a Credit average over their last two semesters of study and have no fail grades on their record.
2. If a student has already failed the prerequisite unit then the student should not be granted permission for either prerequisite waiver or concurrent enrolment..
3. The primary consideration should be “does the student have the ability to successfully complete the units?” Requests for approval to waive prerequisites and/or concurrent enrolment based on financial, personal and/or family considerations will generally not be accepted.
4. All requests for approval to waive prerequisites and/or concurrent enrolment must be completed and approved by the end of week 2 of the semester. Requests which have not been approved by the relevant program chair by the end of week 2 will not be approved.

If approval to waive unit prerequisites or for concurrent enrolment is not given, the student must complete all prerequisites before enrolling in the unit.
